PROJECTS

CAFÉ POS AND INVENTORY MANAGEMENT SYSTEM

Java, JavaFX, MySQL

- Developed a Point of Sale and Inventory Management System for our campus café using Java, JavaFX, and MySQL. The system manages sales transactions, tracks product inventory in real time, and provides a user-friendly graphical interface for efficient daily operations

CODECAMPUS: GAMIFIED CODING PLATFORM

Vanilla Javascript, Springboot, MySQL

- Developed a gamified coding platform enabling students to practice programming through interactive challenges and professors to create and manage courses. Built dynamic user interfaces, implemented backend logic with RESTful APIs and Spring Boot authentication for secure user access, and integrated a MySQL database to track progress, submissions, and rewards.
