PROJECTS

PORTFOLIO WEBSITE

React, TypeScript, Tailwind CSS

- Designed and developed a portfolio website with a mobile-first, type-safe, and responsive design to establish a professional online presence.

CODECAMPUS: GAMIFIED CODING PLATFORM

Vanilla Javascript, Springboot, MySQL

- Designed and developed a gamified coding platform enabling students to practice programming through interactive challenges and professors to create and manage courses. Built dynamic user interfaces, implemented backend logic with RESTful APIs and Spring Boot authentication for secure user access, and integrated a MySQL database to track progress, submissions, and rewards.

CAFÉ POS AND INVENTORY MANAGEMENT SYSTEM

Java, JavaFX, MySQL

- Designed and developed a Point of Sale and Inventory Management System for our campus café using Java, JavaFX, and MySQL. The system manages sales transactions, tracks product inventory in real time, and provides a user-friendly graphical interface for efficient daily operations.
